Gender Sensitization cell

Gender Sensitization is a basic requirement to understand the sensitive needs of a particular gender. It helps us to examine our personal attitudes and beliefs and question the 'realities' that we thought we know. The need for this sensitivity has been felt and realized through times immemorial and in almost all kinds of human existence, across the globe. Recent discourses focus upon the need to sensitize gender issues on campus as many believe that education is the catalyst for change. Educational spaces instill thought and make one have a perception that they believe. The Conveners and Members of the Committees through their strict vigilance will ensure harassment free & homely stay of the students upon their arrival in the campus.
